Secure passwords

Is your password really secure?

✓ The longer the password, the stronger it is.
It should be at least **12 characters** long.

✓ Your password should contain **upper- and lowercase letters, numbers,** and **special characters.**

✓ Use a **unique password** for every account.

✓ Use **two-factor authentication** for sensitive accounts.

✓ Germany's Federal Office for Information Security (BSI) strongly discourages frequently changing your passwords.
